## Dali University

Situated in the breathtakingly beautiful city of Dali in Yunnan province Dali university has two campuses, Xiaguagn Campus and Old Town Campus all located within the city of Dali covering a total area of 300,000 sq meters. Situated in Yunnan province of P.R.China, it is 5 hrs by road and 6 hours by rail from the city of Kunming, the provincial Capital. Kunming is well connected by air with all domestic and international destinations. Dali university is a multi disciplinary university with a state of the art medical college and hospital.

**Affiliation :** The university is under the provincial government of Yunnan and is listed with the World Health Organisation and International Medical Education Directory (IMED).

In the last 6 years wide ranging communication and cooperation have been made between the university and those of America, Australia and South East Asian countries. More than 800 students have studied in the International MBBS Program on campus. Of the students who have appeared for the FMG Examinations (MCI Screening Test) conducted by NBE 175 (as on 30/12/2015) have already passed and are now registered for practice in India, with more students giving the exams every year.

**Special Features :** Dali University attaches great importance to scientific Research and Development and has undertaken 171 scientific research programs including 9 national and provincial natural science programs winning the provincial science award. Dali is one of the most beautiful cities in China and the University has fostered over the past decades, a large number of qualified graduates, for hospitals, medical and health organizations and schools of different kinds in Yunnan province.

**Teaching Staff :** There are more than 1500 staff members and 700 professionals of the ranks of professors and associate professors. There are 15 colleges including that of clinical medicine. In addition, there are 5 scientific research institutions, an affiliated hospital and a medicine research institution.

**Infrastructure :** The classrooms are state of the art and equipped with a modern library. The college has an integrated laboratory which is a model for the Yunnan province. The university has twin sharing dormitories and a very hygienic canteen with a wide variety of food stuff.

**Hospital :** The Dali University Hospital covers a total area of 8.6 hectares with a construction area of 5360 square meters. It has 500 inpatient beds and 31 clinical departments. There are 560 staffs working in the Hospital at present. The Hospital is equipped with advanced medical equipments, such as Hitachi 7180 biochemical analyzer, Nephro Care haemo dialysis machine, Olympus hysteroscope , in order to meet the requirements of higher medical education.

During the past ten years, the hospital has successfully conducted many new and complicated Surgeries, including the first Test-Tube Baby (In Vitro Fertilisation) of western Yunnan province, RF pedicel vertebral arch, bone screw treatment of spinal fractures, total hip replacement, giant dextroacoustic neuroma-ectomy in Cere Bellopontine angle, Cardiac Surgery on Beating Heart. In 2006, the hospital's Telemedicine center was put into operation which will act as a platform for the hospital in developing more sophisticated items with high tech equipment.
